

Materials Research Society

University of Vermont Chapter presents a talk on

Working With Patents: Intellectual Property for Scientists and Engineers

With PhD Student David Allemeier,
Registered Patent Agent

What is a patent?

What do I do if I need to use patented technology?

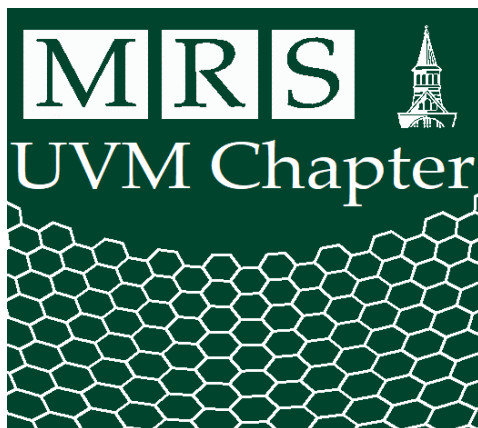

How do I get a patent?

What are my rights as an inventor?

Come learn the answers to these questions and more as a fellow student shares his experience writing patents for next-generation semiconductor technologies.

Friday, March 22th

Lafayette 308 1:00-2:00 pm
