Dear Terry,

Based on review of your application by the certification review committee and the completion of the on-site inspection, final approval for organic certification of your **apples** has been granted. The enclosed certificate verifies that your certification is valid until your next annual review.

Overall your inspection report was very favorable.

We rely on certified farmers and processors to provide input into the certification program and standards. If there is any feedback on standards issues that you would like to submit, or if you have recommendations for how to streamline the application process, please let me know.

Sincerely,

Cheryl Bruce, VOF Certification Staff
