

## Highmoor Farm Organic Apple Tour

Wednesday, July 21, 2010

9:30 am to Noon

Please join us for a field day featuring organic apple research with special guests Lorraine Berkett and members of the OrganicA Project from the University of Vermont. We will tour a transitional to organic orchard with three varieties of dwarf apple trees in their fourth year. As a controlled research project, we are testing different weed management strategies of bark mulch and limonene herbicide. Lorraine Berkett and Terry Bradshaw will talk about organic apple research at the University of Vermont. This will be a great opportunity to learn about current techniques and share with others your experiences in growing organic apples.

### Directions to Highmoor Farm.

From the north on I95, take exit 109B in Augusta, head west on US Route 202 towards Winthrop. Continue on Route 202 for about 15 miles. Highmoor Farm will be located on the left-hand side of the road. Telephone: 207-933-2100.

From the South, take I-95 heading north to Auburn. From Exit 75 turn left onto Route 202. Continue on Route 202 through Auburn and Lewiston for approximately 20 minutes into the town of Monmouth. Highmoor Farm will be on the right-hand side of the road.

Our physical address is 52 US Route 202, Monmouth, ME 04259.

For more information, contact Renae Moran at (207) 933-2100 x 105, or by email at [rmoran@maine.edu](mailto:rmoran@maine.edu).

If you are a person with a disability and will need any accommodations to participate in this program, please call the Highmoor Farm at 207-933-2100 (TDD 1-800-287-9757 in Maine) to discuss your needs. Please contact us at least one day prior to this event to assure fullest possible attention to your needs.

***Please come prepared for the weather conditions of the day. See you there !***
