MEMORANDUM OF UNDERSTANDING
MINOR GROUPS IN LABS

In consideration of the University of Vermont (UVM) allowing minor children from __________________________ to observe or participate in hands-on lab work, beginning (name of organization) __________________________ through __________________________, it is understood that such sponsoring (date) __________________________ (date) __________________________ organization will provide supervision of the children at all times.

UVM personnel will provide the necessary lab safety training, chemical safety training and training in hazardous waste disposal protocol, as needed and appropriate, as well as any personal protective equipment. Organization will ensure the minor children utilize such protective equipment.

The Organization knowingly accepts responsibility for the risks associated with this activity and agrees to indemnify and hold harmless the University of Vermont, its officers and employees for any injuries or damages that may incur, except for that which is caused by the sole negligence of the University.
