What we offer.

Cigna Healthcare Medicare Advantage plans go beyond Original Medicare to provide you with additional coverage.

Freedom of choice

Our Medicare Advantage PPO plans offer the freedom to see any doctor or hospital that participates in Medicare and accepts the plan, with no referrals required. **Unlike many other PPO plans, you pay the same cost-share to see an in-network provider or out-of-network provider.**

Primary care

We're dedicated to helping you improve your health. We work with your doctors to make sure you get the time, attention and quality

care you deserve. This approach gives you more ways to get healthier – and stay healthier.

As a Cigna Healthcare Medicare Advantage PPO customer, you're not required to select a primary care physician (PCP), but we do encourage it.

Your PCP serves as your personal guide through your health journey. They know your medical history and monitor all your tests, prescriptions and preventive care needs – and can coordinate care with other providers or specialists, if needed.

Help is always here.

If you have any questions, customer service is here to help. We go above and beyond to make sure you have everything you need to understand and get the most from your plan.

Specialty care

If you choose a PCP, they can help you find a specialist or hospital when you need one, and can work with them to keep you healthier.

Whether or not you choose a PCP, your plan offers you the freedom to see any doctor or hospital that accepts Medicare and the Cigna Healthcare Medicare Advantage PPO plan, with no referrals required.

Telehealth (Virtual care)

Telehealth (also known as telemedicine or virtual care) allows you to connect with a provider, from the comfort of your home or when you're on the go, by phone or video. Your doctor may offer telehealth visits as a care option. Check with them to see if you can receive their services through a telehealth visit. Cigna Healthcare also offers the 24-hour convenience of virtual care with MDLIVE. If your doctor's office is closed, you can talk anytime with an MDLIVE telehealth provider using your phone, computer or tablet.

Behavioral health services

Cigna Healthcare recognizes that emotional health is an essential part of our customers' overall health care. This is why we provide key behavioral health services as part of our commitment to whole person health. With your Cigna Healthcare Medicare Advantage plan, you'll have access to help for a range of concerns, such as depression, loss and grief, mood disorders, and addictive behavior.

Support for chronic conditions

Cigna Healthcare customers with certain health needs may qualify for one of our chronic and complex care support programs. Customers who qualify get the added benefit of a dedicated care manager who helps coordinate care, review medication and therapies, provide dietary support, and find community resources and education. Chronic condition support is designed to help customers with conditions such as kidney disease, COPD, depression and diabetes. Complex care support is designed to help customers with multiple chronic conditions.

To speak with a Care Manager, call **1-866-382-0518 (TTY 711)**, Monday - Friday, 8 a.m. - 5 p.m.

How your medical coverage works.

With the Cigna True Choice Medicare Advantage PPO plan, you have the option of using in-network or out-of-network providers, as long as they participate in Medicare and accept the plan. Accepting the plan means the doctor is willing to treat you and bill Cigna

Healthcare, even if they are not contracted with Cigna Healthcare as an in-network Medicare Advantage provider. Unlike many other PPO plans, with this plan you pay the same cost-share to see an in-network provider or out-of-network provider.

Using an in-network provider

- An in-network provider is a doctor or other health care professional who has a contract with Cigna Healthcare to see Medicare-eligible patients.
- When you see an in-network provider, you pay your copay or coinsurance according to your plan benefits and your health care provider bills Cigna Healthcare for the rest of the cost of your service(s). The in-network provider is paid according to their contract with Cigna Healthcare.
- All in-network Cigna Healthcare Medicare Advantage PPO providers participate in Medicare and already accept the Cigna Healthcare plan as part of their contract with us.
- In-network providers must continue to see you if you are an existing patient. An in-network provider may choose not to see you if you are not an existing patient and they are not accepting new Medicare patients at that time.

Using an out-of-network provider

- An out-of-network provider is a doctor or other health care professional who does not currently have a contract with Cigna Healthcare to see Medicare-eligible patients.
- You can see any out-of-network provider who participates in Medicare and accepts the plan. Accepting the plan means the doctor is willing to treat you and bill Cigna Healthcare.
- When you see an out-of-network provider, you pay your plan's copay or coinsurance. Cigna Healthcare will pay for the rest of the cost of your covered service(s), including any excess charges, up to the limit set by Medicare.
- In some cases, an out-of-network provider may refuse to directly bill Cigna Healthcare and ask that you pay the full allowable amount set by Medicare. If that happens, you can pay the doctor and then submit your claim to Cigna Healthcare for reimbursement. Cigna Healthcare will reimburse you for the cost of your covered service(s), including any excess charges, up to the limit set by Medicare, less your copay or coinsurance.
- In the event your doctor says they will not accept the plan, call customer service and let us know. Cigna Healthcare will reach out to the doctor on your behalf to explain how the plan works. In most cases, this will resolve the issue.

Wellness and incentives.

Preventive services

As part of your Cigna Healthcare coverage, you'll have access to a wide range of preventive benefits. These services include yearly health check-ups, colorectal screenings, mammograms and others. Prevention and early detection can help lower your chance of serious illness, avoid hospitalization and manage your medical symptoms. Paying close attention and having preventive screenings can help save you time and money in the long run.

To help you stay current with your recommended screenings, we will send you reminders throughout the year.

Earn incentives for completing healthy activities

With the Cigna Medicare Advantage Incentives program, **you can earn up to \$200** for completing healthy activities. After completing your yearly health check-up, you can qualify for additional incentives as determined by your plan and provider. For each additional activity you complete, you can earn additional reward dollars loaded on your **Cigna Healthy Today** card. Earn incentives for activities including recommended screenings, using online resources, staying active, and more.

Your Cigna Healthcare Medicare Advantage Plan includes a Cigna Healthy Today benefit card. Your incentive reward dollars for completing healthy activities will automatically be posted to your card and can be used to purchase goods and services.
